

# Autumn Tree

## *Materials:*

- Paper for the base
- Brown paper grocery bag
- Tissue paper in Fall colors:  
Orange, Yellow, Green, Red  
Or, magazines to cut up into leaves
- Glue
- Scissors

## *How to Make It:*

Take the grocery bag apart until you have a flat area to draw on. Then put your arm and hand down on the bag and trace your forearm and fingers [be sure to spread them apart]-- this will become your trunk and branches of the tree. Make sure that your tree will fit on your base paper.

Cut the “tree” from the grocery bag and glue it to your base.

Now cut out leaf shapes from the tissue paper, or magazines, and glue them on your tree. You only need a tiny bit of glue on one end of the leaf, so that your tree will look dimensional!

That's it! Easy breezy, just like Autumn!
